

ABSTRACT AMENDMENT

The following abstract replaces the prior abstract in the patent application:

An application program interface includes a first class to provide information regarding a current HTTP request. The application program interface also includes a second class to manage HTTP output to a client and an object to provide access to server-side utilities and processes. Particular application program interfaces may include additional classes to manipulate cookies, handle file transfers, provide exception information, or control operation of an output cache.

CLAIM AMENDMENTS

Claims pending:

- At time of the Office Action: Claims 1-31.
- After this Response: Claims 1-33.

Canceled claims: None.

Amended claims: 8, 15, 16, 22, 24-28 and 31.

New Claims: 32-33.
